

Mars European Palm Oil Mill List

January 2019

Mars is committed to developing a fully sustainable and traceable palm oil supply chain. It's critical that we protect forests and biodiversity, minimize the carbon footprint of our supply chain, respect human rights and boost the availability and traceability of responsible supplies.

We are a member of the Roundtable on Sustainable Palm Oil (RSPO), a non-profit membership organization that promotes the growth and use of sustainable palm oil and since 2013, we have purchased 100% of our palm oil from RSPO-certified sources through the mass balance program. More recently, as of January 1, 2019, Mars palm oil for Europe is RSPO-segregated, meaning certified palm oil is kept separate throughout the entire supply chain. This has effectively reduced the number of mills we source from for the region from approximately 1,500 to 150. Following is the Mars European palm oil mill list.

Mars European SG mill list

Parent Group	Mill Name	RSPO	Countries
